

# ITD Servers Connection Information

## Accessing your site files (FTP)

**HOST:** itd1.cincinnatiastate.edu

**Username:** Same username you use to log on to computers at school, **HOWEVER** you must put cincinnatiastate\ in front of it. Example: cincinnatiastate\jmsmith

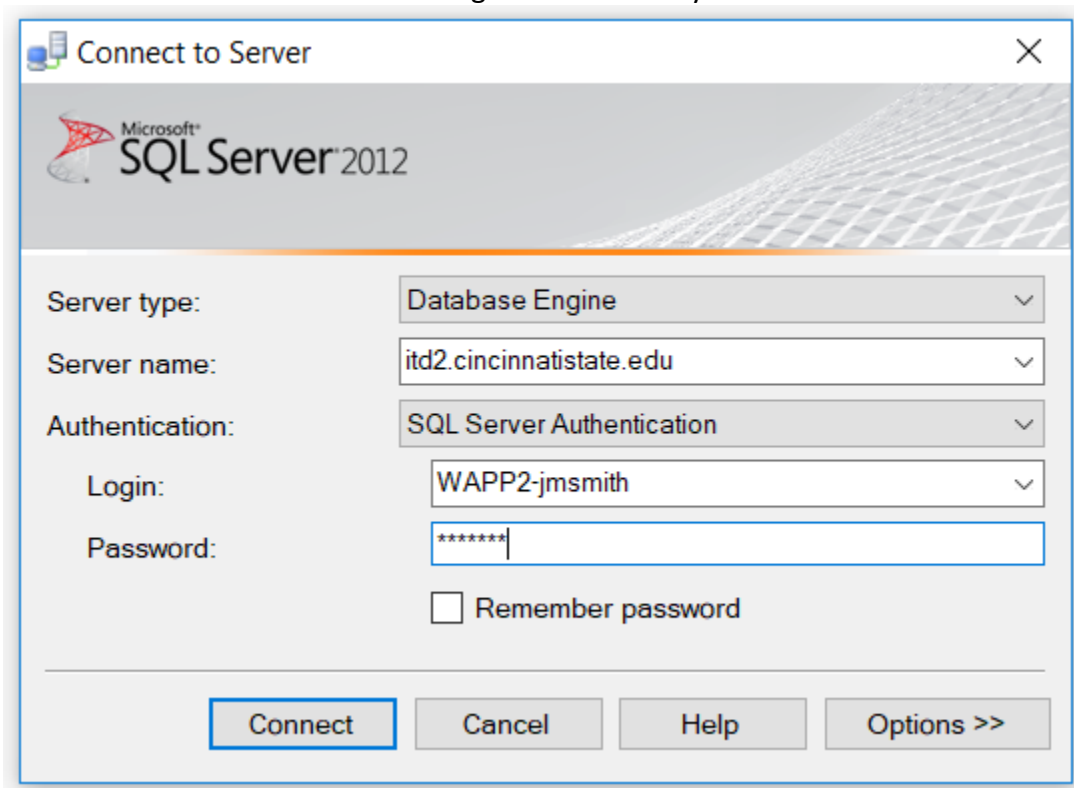

**PASSWORD:** The password is the same as you use to log on to computers at school

## Viewing your site (HTTP)

**In your Browser Address box type:** http://itd1.cincinnatiastate.edu/wapp2-*LastNameFirstInitial*  
Example: http://itd1.cincinnatiastate.edu/wapp2-SmithJ

## Accessing your class SQL Server

To access your SQL Server database, open SQL Server Management Studio. The screenshot below shows SQL 2012. Newer versions log in the same way as SQL 2012.

- **Server name:** itd2.cincinnati.state.edu
- **Authentication:** Use *SQL Server Authentication* to log in.
- **User name:** Your Cincinnati State login for labs prefixed with WAPP2-. Example: If your name is John M Smith your Login would be: WAPP2-**jmSmith**
- **Password:** Your Cincinnati State student ID (including any leading zeros – total of 7 digits)

The naming convention for student databases are WAPP2-*LastnameFirstInitial*; Example: If your name is John Smith then your DB Catalogue would be: WAPP2-**SmithJ**

You are set up as the DBO for your DB and have full rights.
